## 6 Hour Class

### Thread Painting

Free Motion "Thread Painting" can be a whole lot of fun and very rewarding once you master the technique.

I have been fortunate to win multiple blue ribbons for my thread painting on my pictorial wall quilts over the last several years. No one was more surprised than me!

In this class I will share with you how I got started thread painting, what techniques I used to improve my skills and how I approach my free motion quilting on new projects.

I will also share some of the techniques I use to "finish" the design after the quilting is done.

You will learn:

How to get started.

What supplies you will need.

Thread selection for quilt top and backing.

Needle selection.

Basic free motion techniques. Should I use a ruler?
